Jack Humphreys, a long time MG and Master Naturalist, will be giving a tour of Fisherman's Island at 1:00 on the day of the meeting. This is the island you see when you come over the bridge. It can only be accessed with a tour person. We thought this would be something the members would enjoy. He can only take a limited number for this tour. He likes to keep it at 20 however he could do more. The problem is parking so we need to know who is interested. When signing up for lunch, please let Julie know if you are interested in seeing this island.
